## Miss Foust's Victory Is Genuine Surprise

LOUISVILLE, Ky. Mary Louise Foust has generated one of the real surprises in the Democratic primaries by defeating John W. Greene, the organizational candidate, in the state auditor's race.

With 3,050 of 3,063 precincts reporting, Miss Foust, of Shelbyville, had 115,455 to 107,388 for Greene, of Sandy Hook. Herbert Rowland of Meally in Johnson County received 30,072 votes.

Miss Foust, 58, ran on a financial shoestring against a man who had won the endorsement of the state's four elective Democratic officeholders.

Her headquarters was where ever she traveled — and she moved around constantly while Greene relied heavily on the telephone and mailings.

Miss Foust faces James Thompson, a young Louisville businessman who was appointed by Gov. Louie B. Nunn after the death of auditor Clyde Conley of Paintsville and had no primary opposition.

"My stand has been the accountability of the proper expenditure of the tax dollar," Miss Foust said. "And speaking of the tax dollar, I called for exemption of food and medicine from the 5 per cent sales tax."

Miss Foust stressed her qualifications during the campaign. She is an attorney, a certified public accountant and served as state auditor from 1956 to 1960.

In 1963 she became the first woman to run for governor, losing in the Democratic primary.

In 1968 Greene defeated her in the auditor primary, then lost by a narrow margin to Conley. He was expected to repeat the primary performance this time, especially with the Democratic hierarchy's backing.

Miss Foust said one voter asked during the campaign: "With your qualifications, what do you want with this job?" It pays \$18,000 a year.

"I admitted it was kind of stupid to run from that viewpoint," she said, "but not from the viewpoint of public service."

For Greene the defeat was a bitter pill. As assistant to the last Democratic auditor, Henry Carter of Frankfort, he believed he was the logical Democratic choice.

Greene ran as a "Democrat's Democrat" and stressed party unity.

At 52 he has held a number of state and political jobs. He is a former legislator, was an aide to former Gov. Bert Combs and resigned last March as committee coordinator for the Legislative Research Commission to enter the primary.

Greene obtained the official endorsement of Lt. Gov. Wendell Ford, Atty. Gen. John Breckinridge, Treasurer Thelma Stovall

# US 45 Bridge Work Target Date Aug. 15

If everything goes according to schedule, traffic should be rolling freely between Union City and Kenton, on Highway 45-W by the 15th day in August—and perhaps sooner, according to George L. Allen, assistant regional construction engineer for the state Department of Highways.

The target date for completion of the construction of bridges spanning the bottoms between the two municipalities was included in a report filed with Lewis Evans, assistant state construction engineer at Nashville on May 15.

The report was compiled at the request of State Rep. Ned R. McWhorter of Weakley County who has been keeping in close touch with state highway engineers since a number of complaints, including Letters to the Editor of The Messenger, began being voiced by citizens of this entire area.

The highway has been closed about 18 months while construction firms have been replacing the old, narrow, dangerous and antiquated bridges with wider, safer and more modern spans.

The first recent call for a speedup in the construction work came from Tom Wade Jr., of Union City in a letter to state officials, a copy of which was offered to The Messenger for publication. State Rep. McWhorter responded to the letter and last week sent a copy of the progress report to Mr. Wade. Most of the work appears to be close to completion, except for Bridge No. 1, according to the report.

## Fulton Payroll Tax Cut Under Consideration

FULTON, Ky. — A proposal that the City of Fulton's payroll tax be cut in half was put before the City Commission Monday night by Mayor — and acting City Manager — Gilbert DeMyer.

"I recommend that the payroll tax be reduced by 50 per cent," DeMyer told the Commission. "I don't like to charge taxes that are not used and not needed."

The Mayor's recommendation apparently came as a surprise to commission members, who asked for more time to study the situation before making a decision. It was suggested by one commissioner that next year's budget, now in the process of preparation, be considered before deciding whether a cut would be feasible.

The payroll tax enacted almost a year ago, has produced \$43,289 in the first three quarters of this fiscal year, DeMyer said.

In a report of the city's financial situation, Mr. DeMyer said the general fund now has more than \$12,000, and the utility fund over \$33,000. Approximately

\$24,000 will be transferred to the general fund in an in lieu of tax payment.

He further said that the utility fund will show an increase this year due to the recent changes made in water and sewer assessment, and that there has been a saving in the amount budgeted for the City Manager's office since he was serving in that capacity at a reduced salary of \$50 per week.

## Bid Letting To Be Biggest

State Highway Commissioner Charles Speight has announced that the State Highway Department will receive bids June 27 on an estimated \$41 million in construction work, including West Tennessee projects in Lake, Dyer, Gibson and Henry counties.

Commissioner Speight said the bid announcement is the largest ever made by the highway department, exceeding the previous record set in September 1964 which totaled \$35.7 million. State Highway Engineer H. D. "Pete" Long said the announcement this week covers work in 46 counties on 76 projects with 69 contracts.

The major project is the construction of approaches and superstructure for the Interstate 40 bridge across the Mississippi at Memphis at an estimated cost

of \$4.1 million.

Mr. Long noted that the bridge project is a joint venture with the states of Arkansas and Tennessee paying 10 per cent of the cost and the 90 per cent share being financed by the Federal Highway Trust Fund.

None of the projects will involve Obion County. The closest is in Dyer County where a 5.21-mile stretch of State Route 78 will be resurfaced. The project will begin at the north end of the Obion River bridge near Bogota and run generally north

to the Obion County line, south of Ridgely. Estimated cost of the project is \$129,000.

One other Dyer County project is included. The resurfacing job will begin west of Finley on State 20 and extend for 5.58 miles to the west urban limit of Finley. Its cost is an estimated \$108,000.

In Lake County, the state plans to resurface State 78 beginning at the south city limit of the Wynnsburg community and extending for 3.60 miles to State 21 at Tiptonville.
